

A Club For You

Members displaying our portable layout at a Rail-Ex public show.

We invite you to join us with a hobby where the options are never ending ...

There's so many different aspects to model railways that the trains running around the track are only one of things that happens in a club scene.

Other skills to learn and enjoy can include,
Planning and Sketching
Carpentry
Soldering & Electrical
Painting
Kitset Building
Computer control,
To name a few.

We offer members the opportunity to gain new skills with clinics we run during our meetings and the fellowship of sharing a hobby that has no bounds.

Meetings

We meet on the 2nd and 3rd Monday nights of each month from 7.30pm in our new clubroom inside Newlands Scout Hall in Spenmore St, Newlands.

Some members choose to meet more often and members can arrange access at some other times to the clubroom.

We have additional activities on some weekends joining in with other clubs at public shows and doing 1/2 day working bee's on our layout.

Sometimes members take parts of our display layout home to work on them for a while.

Building the scenery.

Subscriptions

Our subscriptions are very reasonable at \$60.00 p/yr for Adults and \$30.00 p/yr for Junior Members, (still at school).

If an adult wished to join with their child we may reduce the junior members fee.

Scales

Our club layout is a portable HO scale layout with most members modelling in HO & N scale. Below are the size differences with the largest being G and getting smaller with O, HO/OO, N and Z.

We like to support our local Hobby suppliers
